

Operative G T Purdy.

Oct.14th,1926

Re: Finding of the bodies Sept.16th,1922.

Operative interviewed Mr. Lawrence Cake, of 201 Easton Ave. He went out to the Phillips Farm the morning the bodies were found and observed the bodies lying there. This was about 11:30 in the morning. He stated that the State Investigators brought him up to Somerville and took a statement from him. He stated that he saw no letters anywhere near the bodies, nor the calling card of Dr. Hall that was supposed to have been propped against the heel of his shoe. He said Dr. Hall's hands were scratched or cut and were covered with blood. The bodies were lying side by side and the coroner had not arrived up to the time he was there. He positively states that he is sure there were no letters or calling card.

Respectfully submitted:
